## FOREWORD

Coming to you as we do, for the fifth time as ANA Convention Auctioneers, it is difficult to find words we have not used before. It is our hope that we may continue to justify the confidence of your Convention Committee and that we may serve you again in the future.

The convention month will close twenty-four years of professional numismatic activity for your Cataloguer, twenty-four years during which many close friendships were cemented and many fine associations were formed. For these we are grateful for they represent the rewards of our labors.

So responsive were our many friends when we announced our books open for consignments, that we have compiled the largest A.N.A. Convention Auction Catalogue ever offered by any one numismatic establishment. Fitting indeed . . . the biggest sale for our biggest State.

Among the splendid listings comprising almost 4800 lots are the excellent coins collected by Mr. Jack Hecht of San Francisco, Mr. Joe Steele of Santa Ana, Mr. Harry J. Stein of New York City, Mr. John H. Morris, Jr. of Birmingham, Mr. Edward J. Hayes of Chicago, Mr. Adolphe Menjou of Beverly Hills, and many others who prefer to remain anonymous. To these thirty-five consignors we express our thanks for their confidences and favors.

There will be three public sessions, and one exclusively for mail bids. Naturally, mail bids will be accepted for all four sections, public as well as mail. Your participation is respectfully solicited.

The splendid cooperation of Mr. Brad Mills, your General Chairman, of Bob Schermerhorn, Wayne Gard, and B. Max Mehl, cannot go unnoticed. Thanks are due to all the officers of the A.N.A. and especially to Mr. Lewis M. Reagan, Mr. Burton H. Saxton, and Mr. Stuart Mosher. Mr. Lee Hewitt of Numismatic Scrapbook has aided in publicity. Printers, Inc. has done a splendid job.

A. KOSOFF.

Beverly Hills, California  
July, 1953.

## SET — SMALL CENTS

- 45—Complete Set of small cents from 1857 through 1909 including the S mints, both types of 1858 and the 3 types of 1864. As beautifully matched a set as we have seen—mint red and all uncirculated. It is a well-established fact that most of the Indian Head Cents are scarcer in uncirculated condition than the proofs. Cataloguers point out that mint red cents command as much as 50% premiums above catalogue listings. Mr. Hecht, with the same discriminating taste housed these splendid cents in gray plastic, 8" x 12", and had a blue felt slipcover custom made to hold the set. The purchaser of this lot is to be congratulated. The coins alone list for more than \$450.00, and are worth a lot more; the plastic holder must cost at least \$25.00. This choice set should bring about \$600.00.

## SET OF 1909-1949 LINCOLN CENTS

- 46—Complete uncirculated set 1909-1949 (except 1923-S), all dates and mint marks, the 9 SVDB, and 14D are very desirable specimens as are almost all of the others (25-S, 26-D, 27, 27D are spotted). The P mints from 1936 to 1942 are proofs. Housed in National Coin pages, this beautiful set should bring \$275.00.

## SELECT COMMEMORATIVE SET

- 99—Here is one of the most unusual of offerings—housed in unique fashion which should appeal to the collector who takes pride in exhibiting his coins. The set of 48 Commemorative half dollars represents a type set, selected coin by coin, by one of our leading dealers. Mounted in four milk white plastic pages each about 8½ x 11 inches; black hand engraved lettering. Each coin is in a 2-piece clear plastic receptacle of which 12 are fitted in each page, 4 pages in black leather 3-ring binder. The entire matter is patented but dormant. This set was made by the patent holder for his own collection. You'll be proud indeed to show-off with this display set. You couldn't order the housing for \$100.00. The coins bring over \$335.00. This set should not go for less than \$400.00.

### SET 3 CENTS - SILVER

This set catalogues at only \$600.00 but a number of the coins bring well over list. The 1942 over 1 for example lists at \$30.00 but sells readily at \$50.00, the 1916 D lists at \$100.00 but brings \$130.00, the 1927 D lists at \$75.00 and sells at \$115.00. This complete set of selected dimes should bring about \$800.00.

### **U. S. TYPE SET**

An Unusual Selection of silver coin types in choice condition and of rare dates, from the John H. Morris Collection.

### **HALF DIMES**

- 835—1794. A splendid coin, about uncirculated. There is a planchet defect at the edge below the 7. Lists at \$125.00.
- 836—1797. 13 stars. Dunham-Neil. Sharp, about extremely fine; second type, bust. \$80.00.
- 837—1805. Here is one everyone wants; it is very fine, unusual for this second rarest date of all the early half dimes. Better than the Dunham or Neil specimens. This third type, large eagle, worth \$175.00.
- 838—1837. Pair, bust type and liberty seated uncirculated, 2 pieces. \$22.50.
- 839—1854. Brilliant Proof. Liberty seated, stars on obverse. In recent years proofs of 1855, 56, and 57 have appeared but the 1854 is still a rarity. \$65.00.
- 840—1864. Brilliant proof, rare. Obverse legend. \$45.00.

### **DIMES**

- 841—1796. A sharp, extremely fine coin of the first type. \$110.00.
- 842—1804, 13 stars on reverse. A fine example of this rare date, second type, large eagle. \$100.00.

847—1859. Transitional Dime. Obverse of 1859 (stars) reverse of 1860 (without legend). Nowhere does UNITED STATES OF AMERICA appears on this coin. Brilliant proof. Very rare. Bring over \$250.00.  
848—1870-S. Legend on obverse. Acquired as uncirculated, it is hardly that, but about extremely fine, very scarce. \$65.00.  
849—1902-S. Barber head. Uncirculated. \$27.50.  
850—1916-D. Mercury head. Quite an extravagance, one might say, putting this rarity in a "type set" but it has paid off. Since Mr. Morris acquired the coin it has soared in market value. Now bringing \$130.00.  
851—**20 Cents.** 1877. Superb brilliant proof. \$65.00.

### QUARTERS

- 852—1796. First date of this series. A splendid proof like example of this rare date. Light rubbing on high spots. Should sell for \$225.00.  
853—1806 over 5. Large eagle. Acquired as uncirculated it is just about that. Scarce, so choice. \$90.00.  
854—1827. Quarter. Type of the regular issue but struck in copper (A.W. 37). Extremely rare (R.14) only 3 pieces said to have been struck. Worth over \$250.00.

### STANDING LIBERTY QUARTERS

- 863—Splendid Set of Standing Liberty Quarters. 1916-1930 all dates and mint marks (no over-date-see next lot). A select group of uncirculated coins in National Coin Pages which lists at about \$750.00 but here again many of the items cannot be acquired except at considerable premiums above list. The 1916 lists at \$100.00 and brings \$130.00, the 1927-S lists at \$90.00 and sells for \$136.00, the 1919-S lists at \$75.00 but bids of over \$150.00 have been received in our Auctions, etc. This desirable set should bring about \$1000.00.
- 864—1918 over 17 S. Uncirculated. It's been many a moon since we've seen one of these in uncirculated condition. In our Agnew Sale last December we had a pretty nice specimen and while it was not uncirculated it attracted bids up to \$206.00. There have been few, if any recent offerings of this rare overdate in uncirculated condition in recent years. This coin is definitely in the \$500.00 class although we do not know if it will reach that figure now or in the near future. It certainly should and this could be the time

### HALF DOLLARS

- 865—1794. First year of issue. A splendid sharp and lustrous coin acquired as uncirculated although we call it extremely fine. Usual mint file marks. Of 13 varieties offered by us in the sale of the World's Greatest Collection of U.S. Half Dollars (1945) only 1 could compare favorably with the gem now being offered. It cost \$175.00 some years ago and should bring at least \$225.
- 866—1794. Another very desirable example of this scarce date. It is strictly very fine, with the usual mint file marks. Certainly worth over \$100.00.
- 867—1795. A splendid coin, barely circulated with mint bloom; most desirable. Of the 45 varieties offered in the World's Greatest Collection only 2 were superior to this beauty. \$115.00.

868—1796. The envelope in which this coin is housed reads, "1796 Half Dollar, 15 stars. Extremely Rare, Finest Known Brilliant Proof, \$1200.00." That about tells the story. I've seen nice specimens of this date. Our W.G.C. lot No. 60 was a beautiful coin; Lot 942 in the Menjou Catalogue was another gem. Neil had only a fine specimen and Atwater's was extremely fine. Go back, if you will, and the Celebrated Stickney Collection had a "very good" 1796. As one of my good friends and colleagues is won't to remark, I haven't seen them all but until a better one comes along this is tops—and it should top its cost of \$1200.00.

869—1797. Fine and rare. Popular with type collectors (1796 and 1797 form a type) and always in demand. \$275.00.

870—1801 (None minted 1798-1900). Heraldic eagle. A lustrous coin, just about uncirculated. There are 13 arrows in the eagle's claw. We readily appreciate the significance of so choice a specimen when we note that the W.G.C. coin was poor. Neil's was very fine and very good to fine was the best the Menjou Catalog could offer and that brought \$35.00. This one worth about \$100.00.

871—1802. Strictly very fine and compares favorably with most specimens offered in the big name catalogues. \$60.00.

872—1803, the large 3. About extremely fine and scarce in this condition. \$40.00.

873—1805. over 4. Strictly very fine with clear over date. Seldom seen so nice. \$27.50.

- 874—1806. Pointed top 6; stem extends through claw. Superb proof-like gem. There is a definite planchet flaw on reverse from rim between OF through last cloud, wing to bottom of M, center of E and top of R to rim. A really beautiful coin, worth \$75.00.
- 875—1807. Bust right. Very fine. \$10.00.
- 876—1808. Bust left. Very fine, 1810 about extremely fine. 2 pieces. \$11.00.
- 877—1809. There is a break in the die which makes the 9 appear as cut over another digit. About uncirculated. \$8.50.
- 878—1811. Large 8. Incused outline of eagle on obverse and of Liberty on reverse. Uncirculated. \$12.50.
- 879—1812. Extremely fine. \$6.00.
- 880—1813. Uncirculated, choice. \$9.00.
- 881—1814. Uncirculated, choice. Outlines of reverse on obverse, etc. Really a gem. \$12.50.
- 882—1815. Here is one you seldom see so choice. Uncirculated with similar impressions (Beistle calls them akcedefects).
- 883—1817, 1818. Very fine, 2 pieces. \$5.00.
- 884—1817 over 13. Not quite extremely fine. \$7.50.
- 885—1819. Perfect date; 1820 over 19. Extremely fine pair. \$11.00.
- 886—1820. Large date, uncirculated. \$8.50.
- 887—1821. Uncirculated. \$6.50.
- 888—1822. Uncirculated. \$6.50.
- 889—1823. Small 50 C; also large 50 C, double profile.
- 890 Extremely fine pair. \$9.00.

### THE 1838-O HALF DOLLAR

Coinage of half dollars at New Orleans commenced in 1838 and was discontinued in 1861, resumed in 1892 and stopped in 1909.

- 905—1838-O. One of the rarest of United States coins in any series, there being but six or seven known specimens, and this is one of the best. It is in proof condition. The specimen in the World's Greatest Collection was catalogued as "Very fine to extremely fine." This gem is thrilling to behold and will add prestige to any collection. The most recent sale of an 1838-O half dollar was recorded in the Guggenheimer Auction several months ago when spirited floor competition resulted in a new record of \$3850.00. Coin prices have continued to rise since that sale and perhaps even this record will be broken.

**GEM 1796 HALF CENT**

- 1452—The extremely rare 1796 half cent with pole to Liberty cap. We are proud to present this choice specimen from the B. H. Collins-Wm. T. Dunham Collections. Mr. Collins acquired this coin from Lincoln of London in 1890. This very desirable half cent is one of the finest we have ever seen, it is strictly very fine and one of the 3 or 4 best known. A leading dealer has called it extremely fine and placed it as 2nd best known. Certainly this is one of the rarest of American copper coins and in this choice condition one of the plums of this sale. \$750.00.

- 1453—**1796**. G-1. Plain edge, with pole. All obverse lettering clear. Reverse shows more wear with ALF faint. An extremely rare coin in very good condition and worth \$225.00.
- 1454—**1796**. Without pole to cop, Gilbert 2. This sharp and very fine specimen has the die break from the left margin to the hair below the cap, across the upper lip, and extending to the right border. Very fine and very rare. Worth about \$600.00.

- 1456—**1800**. G-1. There is only one die of this date. None were minted in 1798 or 1799. Fine-very fine. \$7.00.
- 1457—**1802**. None minted in 1801. The 2 is always over a 0. An unusually nice example of this rare coin which is generally found rather worn. It is about fine. \$62.50.
- (All Half Cents from 1803 through 1808 have 16 leaves on the left branch and 19 leaves and 5 berries on the right branch. On stemless branches, all left branches have 6 berries. The only variation is on the variety with stems where either 5 or 6 berries appear on the left branch.)
- 1458—**1803**. G-3. The 3 is smaller and distant from 0. There is a bulge at 18. The ciphers in denominator seem to touch. A die break from border touches second T in STATES, through F in HALF and between M and E to right border. Extremely fine. \$11.00.
- 1459—**1804**. G-1. Plain 4, with stems. Fine to Very fine. \$15.00.

- 1461—**1804**. (G-7) Spiked chin and protruding tongue. Gilbert describes this variety with "the letter T in every instance is devoid of ceriphs at the bottom." The T's on this specimen are imperfect but are not devoid of ceriphs completely. The left stand is thin but definitely there. Very fine-extremely fine. \$7.50.

- 1464—1840. G-1. Original with large berries. Brilliant, light purple proof. Light obverse scratch. Rare. Lists at \$100.00.
- 1465—1840. G-2. Restrike with small berries. Superb, iridescent proof. Worth \$100.00.

### U. S. PATTERNS

(The appeal which this series holds makes its renewed popularity inevitable. Our Special Pattern Issue of the February Numismatic Gallery Monthly inspired responses which indicate that the trend is strong. Further observations dictate a more practical presentation of this series than is afforded by the Adams-Woodin listing. Collectors are acquiring patterns and trial pieces with emphasis on that series in which they are specializing. A Specialist in Quarters prefers patterns of that denomination to any others, etc. It is by denomination, therefore, that we now offer this choice group. All are proofs unless otherwise listed. Reprints of Adams-Woodin available at \$3.50, write us).

### SET—LIBERTY HEAD NICKELS

- 1838—Complete set of the Liberty Head Nickels from 1883 to 1912 including both varieties of 1883 and the 1912 D and 1912 S; splendidly matched and beautifully housed in 8" by 12" blue plastic, gold lettered. A custom made red felt slip cover protects the plastic. These nickels are hard to get in Uncirculated condition, often more so than are the proof. While the coins alone catalogue for \$213.65 and the plastic certainly is worth \$25.00. we believe this choice sets should bring over \$250.00.

### HALF DIMES

- 1888—1792. Half Dime. There are claims that this is truly the first coin minted by the United States Government. It is in silver with the head of Martha Washington left; the inscription LIB (erty). PAR(ent). OF SCIENCE & INDUSTRY; the date 1792 is under the bust. The reverse depicts a small spread eagle with HALF DIME in 2 lines and star, all btlow. Inscription, UNI. STATES OF AMERICA. It is fine and very rare. \$175.00.
- 1889—1794. A splendid coin, barely circulated. Worth about \$125.00.
- 1890—1795. About extremely fine. \$35.00.
- 1891—1797. Sixteen stars. Fine and scarce. \$35.00.
- 1892—1800. About extremely fine, scarce. \$37.50.
- 1893—1800 LIBERTY. Fine and scarce. \$22.50.
- 1894—1802. One of the real rarities of United States Coinage, the 1802 half dime appears less and less frequently. I can recall none being offered in Sales since the Menjou Catalogue in 1950. While this specimen is only very good, any offering of this date deserves serious consideration no matter how fine a collection it is to grace. All obverse features are clear and despite a weakness of some reverse letters all are clearly discernible. This coin cost \$400.00 years ago and should bring over \$500.00 today.
- 1895—1803. Fine, scarce. \$25.00.
- 1896—1805. Fine, rare. Seldom offered, this coin should bring close to \$100.00.
- 1897—1805. Second rarest of the early half dimes, this is another date which seldom appears in catalogues. The specimen now offered is from the famous Dunham Collection. It was listed as strictly fine and it certainly is. There was a weakness in the reverse die so that the upper stars and the O in OF do not appear. But for this, the coin may be called very fine. Should bring over \$100.00.
- 1898—1853-O. Without arrows. About extremely fine; Rare. Worth over \$100.00.
- 1899—1860. Obverse of 1859, reverse of 1860. The rare transitional piece. Brilliant Uncirculated. \$125.00.
